## Personal Projects

### e-commerce website

Aug, 2023

Unique Store is an innovative and dynamic e-commerce website meticulously crafted using the powerful React.js framework, offering an unparalleled online shopping experience. Packed with an array of advanced functionalities, including pagination, routing, authentication, responsive design, and seamless order placement, Unique Store is designed to cater to modern shoppers' needs.

**Tecnologies Implimentation :** React Js(React-router, context Api ...)

### Personal portfolio site

may 2023

Explore my personal portfolio website crafted using React.js, featuring seamless routing, Bootstrap integration, and a showcase of my projects. This platform encompasses key sections such as an 'About Me' page, a 'Skills' section, and direct links to my social profiles.

**Tecnologies Implimentation :** Html, Css, JavaScript,, React, Bootstrap

### Feedback App

Aug 2023

Crafted with React, my feedback app offers a sleek and user-friendly interface. Seamlessly switch between dark and light modes, thanks to the power of the Context API. Experience secure authentication, where concise comments prompt a friendly reminder. Dive into insightful analytics with an average rating calculation and a total count of comments.

**Tecnologies Implimentation :** React, Context api, Tailwind
